

Estd. 1999

Chhatrapati Shivaji Institute of Technology

Approved by: AICTE, New Delhi | Affiliated to CSVTU, Bhilai

3.3.2 Number of books and chapters in edited volumes/books published and papers published in national/ international conference proceedings per teacher during Academic Year 2023

S.No	Name of the teacher	Title of the paper	Title of the proceedings of the conference	Name of the conference
1	Dr. Santosh Sharma	Framework of Air Pollution Assessment In Smart Cities Using IOT With Machine Learning Approach	International Conference on Applied Artificial Intelligence And Computing	International Conference on Applied Artificial Intelligence and Computing
2	Mr.Prabhas Kumar Gupta	Smart Irrigation System Using IOT	Recent Innovation In Blockchain Technology And Cyber Security	National Conference, RIE & BM, Jalgaon
3	Mr.Prabhas Kumar Gupta	Uncovering of Online Review Using Tent Classification Of Machine Learning	Recent Innovation In Blockchain Technology And Cyber Security	National Conference, RIE & BM, Jalgaon
4	Mr.Prabhas Kumar Gupta	A Review on Leaf Disease Detection Using Image Processing And Machine Learning	Recent Innovation In Blockchain Technology And Cyber Security	National Conference, RIE & BM, Jalgaon

Abstract:

Exhale and inhale filthy air has major health consequences. Air pollution's influence may be mitigated by conducting regular monitoring and keeping a record of it. Government organizations may also take proactive measures to protect the environment by accurately anticipating pollution levels in real time. In future smart cities, we propose using the Internet of Things and machine learning to track pollution levels in the air we breathe. The Pearson correlation test is performed to see whether pollutants and meteorological indicators have a high link. A cloud-centric IoT middleware architecture is used in this research instead of a standard sensor network to gather data from both air pollution and current weather sensors. This means that both reliability and cost have been greatly improved. Sulphur Dioxide (SO2) and Particulate Matter levels were predicted using an Artificial Neural Network (ANN) (PM2.5). The positive results show that ANNs may be used to monitor and forecast air pollution. RMSE values of 0.0128 and 0.0001 for SO2 and PM2.5 were found using our models.

Published in: 2023 2nd International Conference on Applied Artificial Intelligence and Computing (ICAAIC)

An AUTONOMOUS Institution Affiliated to KBCN MU Jalgaon, NAAC Accredited 'A' Grade

Department of CSE-IT-AI-DS

Organized

National Conference on

RECENT INNOVATION IN BLOCKCHAIN TECHNOLOGY AND CYBER SECURITY

in association with IE(I), Nashik Local Centre

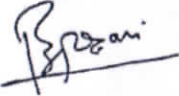

04th March 2023

CERTIFICATE

This is to certify that Mr/Ms/Dr. Prabhas kumar Gupta has participated/presented a paper
entitled Smart Irrigation Systems using Internet in 1st National Conference on **RECENT**
OF Things (IoT).
INNOVATION IN BLOCKCHAIN TECHNOLOGY AND CYBER SECURITY. Paper awarded with _____

Dr. Sonal P. Patil
Convenor & H.O.D.(CSE-IT)

Prof. Pramod B. Gosavi
Convenor & H.O.D.(AI-DS)

Dr. Pranav Charkha
Deputy Director, GHRIEBM

Dr. Preeti Agarwal
Director

Shri. Prilam Raisoni
Executive Director, RGI

An AUTONOMOUS Institution Affiliated to KBCN MU Jalgaon, NAAC Accredited 'A' Grade

Department of CSE-IT-AI-DS

Organized
National Conference on
