Abstract: In the current decade, we are facing a parking problem with the advancement in technology. The population in urban cities is dense due to which lots of vehicles are running on the road leads to the parking problem, traffic problem. The world is facing the new challenge of Vehicle parking. It is observed that one million vehicles consume oil on daily basis. In this paper, an automatic real-time system for automated Vehicle parking is proposed. This system has been implemented with the help of the Internet of things (IOTs). IOT generally exchanges information or data between the two physical devices. Arduino Uno is a microcontroller used in the proposed system. The main use of Arduino in the proposed system is to provide a platform to communicate digital devices and interactive objects that can sense and control physical devices. The proposed system has been implemented with the help of Arduino Uno board for vehicle parking and Node MCU to connect parking area with web or internet. The proposed system incorporated an infrared sensor in each slot for getting information about the vacancy position of the parking slot. The user book-parking slot well in advance, all the necessary information is available on the server. Every user has an exclusive username and password. In case any misuse happened then the system will alert the responsible person.

(WSN) represent two of the most capable IoT technologies i.e. Ultra-High Frequency (UHF), Radio Frequency Identification (RFID), etc. Due to low-cost, low-power technology RFID is used. RFIDs are used to transmit data when powered by the electromagnetic field generated by a reader mainly involving passive devices, named tags [4] [5] [6]. In a variety of application scenarios, the long lifetime of tags makes this technology is highly suitable for development. RFID solutions have a decreased operating spectrum (up to 10 m) inside of boundaries to object to detection and quantification in relatively small areas[7][8]. The consumers go through a once-in-a-time registration process when one's personal information has been questioned to ever be filled out and an account generated with them this account does have information about them and money they can recharge at local kiosks [9]. In this technique, the customers were also guided to an unfilled parking space using video displays entrance of the parking structure. With empty and occupied slots, these displays show a visual representation of the parking lot, which are green and red respectively [10] [11]. The customer has furnished with such a tag that he gets because once he registers, this tag has been connected with his prepaid account as well as contains confidential information, and this tag uses an RFID system and has been mounted on the surface of the

AUDITORS REPORT

TO THE PRINCIPAL, CHHATRAPATI SHIVAJI INSTITUTE OF TECHNOLOGY

We have Audited Books of Accounts of **CHHATRAPATI SHIVAJI INSTITUTE OF TECHNOLOGY, KOLIHAPURI, DURG (C.G.)**, for the year ended on 31st March, 2022 and Balance Sheet as at 31st March, 2022 and Receipts and Payments and Income and Expenditure account for the year ended on that date and report that:

- a. We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit,
- b. In our opinion and to the best of our knowledge and belief subject to notes below, proper of Accounts are maintained as required by law so far as it appears from our examination of those books,
- c. Subject to the notes below, Balance Sheet, Income & Expenditure Account and Receipts & Payments Account are in agreement with the books of Accounts Maintained and they give true and fair view of states of affairs of the college.

OTHER REMARKS:

PAYMENTS:

During the course of vouching and checking of Books of Accounts, we have found some mistakes and the same have been rectified within due course.

CASH BALANCE:

We have not verified Cash-in-Hand physically, and have relied upon certificate of the management, certifying closing cash balance in hand at the end of the year.

At last we thank to employees and the management of the college for extending their co-operation during the course of audit.

Secretary
Shivnath Shikshan & Seva Samiti
