

7.1.2 The Institution has facilities and Initiatives for

1. Alternate sources of energy and energy conservation measures

- A. Solar Energy
- B. Wheeling to the Grid
- C. Use of LED Lights

A. Solar Energy

A. Solar Energy

- Various efforts have been taken in the college to utilize solar energy in an effective way based on its unique infrastructure. It mainly includes the provision of solar rooftop panels. They can produce an average of 10 KW of solar energy of solar steam plant is also installed.
- The solar energy thus obtained is used for powering class rooms, adopting such sustainable technologies to help students to understand how their activities may create an impact on environment.
