CSIT/ VAC/2022-23/01/A

Date – 06/9/2022

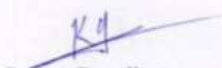

Circular

Ref: CSIT/ VAC/2022-23/01

The schedule for the Certificate Course on “Web Development -03” for B. Tech IVth year students is detailed below. Respective coordinators are requested to verify any discrepancies in the schedule and bring them to the notice of the Course Coordinator. They are also requested to make necessary arrangements to execute the Certificate Course sessions as per the plan. The respective in-charges are also requested to inform the Certificate Course plan to the respective students and ensure that all students attend without fail.

Year	Certificate Course	Faculty In-Charge	Date	Venue
B. Tech IV th	Course on “Web Development -03”	Mr. Kranti Jain	12/9/2022 to 22/09/2022	Lab 10

Time – 10 :00 AM to 2:00 PM

Course Coordinator

HOD
Head of Department
Computer Science & Engineering
CSIT DURG

Certificate Course Contents & Schedule

Academic Year: 2022-23

Name of the Course: Course on "Web Development -03"

Program Code: VAC/2022-23/01

Resource Person: MrGandhar Patwardhan

Program Duration (From – To) : 12/9/2022 to 22/09/2022

Total Hours: 40 Hours

S.No.	Topic to be Covered	Hrs.	Date of Delivery
1	Module 1: Introduction to Web Development - What is web development? - Different types of web development (front-end, back-end, full-stack)	4	12/9/2022 to 22/09/2022
2	- The web development workflow - Introduction to HTML, CSS, and JavaScript	4	
3	Module 2: HTML Fundamentals - Introduction to HTML tags and attributes - Creating basic HTML structure (head, body, elements) - Formatting text (headings, paragraphs, lists)	4	
4	- Working with images, links, and tables - Introduction to semantic HTML - Using HTML forms	4	
5	Module 3: CSS Fundamentals - Introduction to CSS selectors (id, class, element) - Styling text, background, and borders - Layout with CSS (display, float, positioning) - Introduction to responsive design - Using CSS frameworks (Bootstrap)	4	

Estd. 1999

Chhatrapati Shivaji Institute of Technology

Approved by: AICTE, New Delhi | Affiliated to CSVTU, Bhilai

	• Introduction to responsive design • Using CSS frameworks (Bootstrap)	
6	Module 4: Introduction to JavaScript • JavaScript basics (variables, data types, operators) • Control flow statements (if, else, for, while) • Working with functions	4
7	• DOM manipulation (adding, removing, modifying elements) • Event handling (click, mouseover, submit)	4
8	Module 5: Introduction to Web Development Tools • Introduction to web browsers developer tools • Inspecting and debugging HTML and CSS	4
9	• Using browser developer tools to test JavaScript code • Introduction to version control systems (Git) • Finalize and polish the full-stack web application	4
10	Module 6: Project Work • Project presentations and peer reviews • Assessment of projects and assignments • Feedback session for improvement • Certificate distribution	4
Total Number of Hours		40

By the end of this course, students will have a solid understanding of web development using HTML, CSS. They will be able to create dynamic and responsive websites with interactive features and database integration.

**Report
Academic Year 2022-23**

1.	Title of the Program	Course on "WEB DEVELOPMENT -03"
2.	Year /Department	4 th / Computer Science and Engineering , Information Technology
3.	Faculty In-Charge	Mr. Kranti Jain
4.	Number of Hours	40 Hours
5.	Duration	10 days
6.	Venue	Lab 10
7.	Course Objectives	1. To provide a comprehensive understanding of web development technologies including HTML, CSS, and PHP. 2. To teach students how to create responsive and visually appealing websites using HTML and CSS. 3. To introduce students to the basic concepts of PHP programming and how it can be used in web development. 4. To enable students to integrate HTML, CSS, and PHP to build dynamic and interactive websites.
8.	Course Outcome	The students will be able to 1. Understand the basics of web development including HTML, CSS, and PHP. 2. Learn how to create interactive and dynamic websites using HTML, CSS, and PHP. 3. Gain hands-on experience in building and designing web pages. 4. Understand the principles of responsive web design and how to create mobile-friendly websites. 5. Learn how to work with databases using PHP and MySQL.

Program Name: Course on "WEB DEVELOPMENT "

Test series -I

Name of student: Aditi Yadav Branch: CSE Enrollment No. BH3430

1. What does CSS stand for in web development?

- A) Creative Style Sheets
- ☒ B) Cascading Style Sheets
- C) Computer Style Sheets
- D) Control Style Sheets

2. Which programming language is commonly used for client-side web development?

- A) Java
- B) Python
- C) JavaScript
- ☒ D) Ruby

3. What is the purpose of HTML in web development?

- A) Controlling the layout and design of a webpage
- B) Adding interactivity and functionality to a webpage
- C) Storing and accessing data on the server
- ☒ D) Structuring the content of a webpage

4. Which of the following is NOT a popular web development framework?

- A) Angular
- B) Django
- C) Bootstrap
- ☒ D) Wordpress

5. What is the role of a web server in web development?

- A) Storing and managing website files
- ☒ B) Transmitting data between client and server
- C) Designing the layout and appearance of a webpage
- D) Writing code for website functionality

6. HTML is the standard ____ language for creating Web pages.

- A. scripting
- B. programming
- C. styling
- ☒ D. markup

7. HTML stands for _____.

- A. Hyperactive Text Markup Language
- ☒ B. Hyper Text Markup Language
- C. Hyper Text Machine Language
- D. None of these

8. Which element/tag defines a paragraph?

- A. <p>
- B. <pre>
- C. <panel>
- D. None of the above

9. Which tag contains the meta information about the HTML page?

- A. <html>
- B. <title>
- C. <head>
- D. <body>

10. Who invented HTML?

- A. Dave Raggett
- B. Tim Berners-Lee
- C. Denis Ritchie
- D. All of the above

11. In a CSS file, there is a CSS rule for paragraphs tags – what does p can be called?

- ☒ A. Selector
- B. Attribute
- C. Property
- D. Tag

12. CSS comments are placed within the _____.

- A. //
- B. /* and */
- ☒ C. <* and *>
- D. <! And !>

13. Which property is used to define the text color?

- A. text-color
- ☒ B. color
- C. font-color
- D. Both A. and B.

14. To make a text italic, which CSS property is used?

- A. font
- B. font-family
- ☒ C. font-style
- D. All of the above

15. Which CSS property is used to style the hyperlinks on hover (Mouse over)?

- A. a:mouseover
- B. a:move
- C. a:mover
- ☒ D. a:hover

Certificate Course Contents & Schedule

Academic Year: 2022-23

Name of the Course: Course on "Programming Fundamental Concepts"

Program Code: VAC/2022-23/02

Resource Person: MrGandhar Patwardhan

Program Duration (From – To) : 13/10/2022 to 22/10/2022

Total Hours: 40 Hours

S.No.	Topic to be Covered	Hrs.	Date of Delivery
1	Module 1: Introduction to Programming - Overview of programming and its importance - Introduction to programming languages and paradigms - Setting up development environments (IDEs, text editors) - Basic concepts like variables, data types, and operators	4	13/10/2022 to 22/10/2022
2	Module 2: Control Structures and Functions - Control structures: if-else, switch-case, loops (for, while) - Functions: definition, parameters, return values - Practice exercises on control structures and functions	4	
3	Module 3: Arrays, Strings, and Pointers - Arrays: single-dimensional, multi-dimensional, array operations - Strings: string manipulation, string functions - Pointers: introduction, pointer arithmetic, dynamic memory allocation	4	
4	Module 4: Object-Oriented Programming (OOP) Basics Introduction to OOP concepts (classes, objects, inheritance,	4	

List of Enrolled Students

Program Coordinator: Mr. Kranti Jain

Academic Year : 2022-23

Program Name : Course on "Programming Fundamental Concepts"

Test series

- (1). What is the purpose of a programming language?
 - A. To communicate with computers
 - B. To perform mathematical calculations
 - C. To create graphics and animations
 - D. To write essays and reports
- (2). Which of the following is NOT a programming language?
 - A. Java
 - B. Python
 - C. HTML
 - D. Microsoft Word
- (3). What is the primary function of a compiler?
 - A. To convert source code into machine code
 - B. To debug programs
 - C. To design user interfaces
 - D. To create databases
- (4). What is the purpose of a variable in programming?
 - A. To store data
 - B. To perform calculations
 - C. To create loops
 - D. To display output
- (5). In programming, what does the term "syntax" refer to?
 - A. The meaning of a program
 - B. The structure and rules of a language
 - C. The speed of a program
 - D. The output of a program
- (6). Which of the following is NOT a basic data type in programming?
 - A. Integer
 - B. String
 - C. Boolean
 - D. Loop
- (7). What is a function in programming?
 - A. A reusable block of code
 - B. A graphical user interface
 - C. A database query

Approved by: AICTE, New Delhi | Affiliated to CSVTU, Bhilai

D. A function is used in web development, while a method is used in desktop applications.

Estd. 1999

Chhatrapati Shivaji Institute of Technology

Approved by: AICTE, New Delhi | Affiliated to CSVTU, Bhilai

- (15). What is the purpose of flow control in programming?
- A. To manage the flow of water
 - B. To control the flow of electricity
 - C. To control the flow of data or logic in a program
 - D. To manage inventory flow
- (16). What is the difference between a variable and a constant in programming?
- A. A variable can change its value, while a constant remains the same.
 - B. A constant stores data, while a variable performs calculations.
 - C. A variable is used in web development, while a constant is used in desktop applications.
 - D. A constant can change its value, while a variable remains the same.
- (17). What is the purpose of pseudocode in programming?
- A. To hide code from other programmers
 - B. To simplify complex problems before writing actual code
 - C. To test programs for errors
 - D. To generate random numbers
- (18). What is the role of an API in programming?
- A. An application programming interface helps different software applications communicate with each other
 - B. An advanced programming interface for expert programmers
 - C. An animated programming interface
 - D. An interface for virtual reality programming
- (19). What is the purpose of data structures in programming?
- A. To store and organize data efficiently
 - B. To represent mathematical formulas
 - C. To display graphics
 - D. To perform web development
- (20). What is modular programming?
- A. Breaking down a program into smaller, manageable parts
 - B. Writing code in a modular font
 - C. Using modules to create animations
 - D. Performing multiple tasks simultaneously

(1). What is the purpose of a programming language?

- ☒ A. To communicate with computers
- B. To perform mathematical calculations
- C. To create graphics and animations
- D. To write essays and reports

(2). Which of the following is NOT a programming language?

- A. Java
- B. Python
- C. HTML
- ☒ D. Microsoft Word

(3). What is the primary function of a compiler?

- ☒ A. To convert source code into machine code
- B. To debug programs
- C. To design user interfaces
- D. To create databases

(4). What is the purpose of a variable in programming?

- ☒ A. To store data
- B. To perform calculations
- C. To create loops
- D. To display output

(5). In programming, what does the term "syntax" refer to?

- A. The meaning of a program
- ☒ B. The structure and rules of a language
- C. The speed of a program
- D. The output of a program

(6). Which of the following is NOT a basic data type in programming?

- A. Integer
- B. String
- C. Boolean
- ☒ D. Loop

(7). What is a function in programming?

- ☒ A. A reusable block of code
- B. A graphical user interface
- C. A database query
- D. A programming language

Estd. 1999

Chhatrapati Shivaji Institute of Technology

Approved by: AICTE, New Delhi | Affiliated to CSVTU, Bhilai

- (8). What is the purpose of a loop in programming?
- A. To display output
 - B. To store data
 - ☒ C. To repeat a block of code
 - D. To perform calculations
- (9). What is an algorithm?
- A. A type of variable
 - B. A programming language
 - ☒ C. A step-by-step procedure for solving a problem
 - D. An input/output device
- (10). What is the difference between a compiler and an interpreter?
- ☒ A. A compiler translates source code into machine code, while an interpreter executes code line by line.
 - B. A compiler executes code line by line, while an interpreter translates code into machine code.
 - C. A compiler and interpreter perform the same function.
 - D. A compiler is used for web development, while an interpreter is used for desktop applications.
- (11). Which of the following is NOT a type of programming paradigm?
- A. Object-oriented
 - B. Declarative
 - C. Functional
 - ☒ D. Debugging
- (12). What is the purpose of comments in programming?
- A. To provide instructions to the compiler
 - B. To prevent errors in code
 - C. To disable certain lines of code
 - ☒ D. To document and explain code
- (13). What is an IDE in programming?
- ☒ A. An integrated development environment
 - B. A programming language
 - C. A database
 - D. A type of loop
- (14). What is the difference between a function and a method in programming?
- A. A function is used for calculations, while a method is used for input/output.
 - B. A function is a reusable block of code, while a method is a function within a class.
 - C. A function and a method perform the same function.
 - ☒ D. A function is used in web development, while a method is used in desktop applications.
- (15). What is the purpose of flow control in programming?
- A. To manage the flow of water
 - B. To control the flow of electricity
 - ☒ C. To control the flow of data or logic in a program
 - D. To manage inventory flow

Name of student: Kamlesh..... Test series
Branch: I.T...... Enrollment No. BJ7579

(1). What is the purpose of a programming language?

- ☒ A. To communicate with computers
- ☐ B. To perform mathematical calculations
- ☐ C. To create graphics and animations
- ☐ D. To write essays and reports

(2). Which of the following is NOT a programming language?

- ☐ A. Java
- ☐ B. Python
- ☐ C. HTML
- ☒ D. Microsoft Word

(3). What is the primary function of a compiler?

- ☐ A. To convert source code into machine code
- ☐ B. To debug programs
- ☐ C. To design user interfaces
- ☐ D. To create databases

(4). What is the purpose of a variable in programming?

- ☒ A. To store data
- ☐ B. To perform calculations
- ☐ C. To create loops
- ☐ D. To display output

(5). In programming, what does the term "syntax" refer to?

- ☐ A. The meaning of a program
- ☒ B. The structure and rules of a language
- ☐ C. The speed of a program
- ☐ D. The output of a program

(6). Which of the following is NOT a basic data type in programming?

- ☐ A. Integer
- ☐ B. String
- ☐ C. Boolean
- ☐ D. Loop

(7). What is a function in programming?

- ☒ A. A reusable block of code
- ☐ B. A graphical user interface
- ☐ C. A database query
- ☐ D. A programming language

(8). What is the purpose of a loop in programming?

- A. To display output
- B. To store data
- ☒ C. To repeat a block of code
- D. To perform calculations

(9). What is an algorithm?

- A. A type of variable
- B. A programming language
- ☒ C. A step-by-step procedure for solving a problem
- D. An input/output device

(10). What is the difference between a compiler and an interpreter?

- A. A compiler translates source code into machine code, while an interpreter executes code line by line.
- B. A compiler executes code line by line, while an interpreter translates code into machine code.
- C. A compiler and interpreter perform the same function.
- ☒ D. A compiler is used for web development, while an interpreter is used for desktop applications.

(11). Which of the following is NOT a type of programming paradigm?

- A. Object-oriented
- B. Declarative
- C. Functional
- ☒ D. Debugging

(12). What is the purpose of comments in programming?

- A. To provide instructions to the compiler
- B. To prevent errors in code
- C. To disable certain lines of code
- ☒ D. To document and explain code

(13). What is an IDE in programming?

- ☒ A. An integrated development environment
- B. A programming language
- C. A database
- D. A type of loop

(14). What is the difference between a function and a method in programming?

- A. A function is used for calculations, while a method is used for input/output.
- B. A function is a reusable block of code, while a method is a function within a class.
- C. A function and a method perform the same function.
- ☒ D. A function is used in web development, while a method is used in desktop applications.

(15). What is the purpose of flow control in programming?

- A. To manage the flow of water

Sub.: Permission to conduct the Course on “Youth Employment Program”

Respected Sir,

We have planned to conduct Value Added Course on title “Youth Employment Program” for 3rd years students. Details are given below:

Title of Program: Course on “Youth Employment Program”

Resource Person: Mr. Saksham Sharma

Date: 19/12/2022 to 29/12/2022

So kindly give us permission to conduct the program and to utilize the Sambhaji Hall.

Thankyou,

The schedule for the Certificate Course on “Youth Employment Program”

for B. Tech IIIrd year students is detailed below. Respective coordinators are requested to verify any discrepancies in the schedule and bring them to the notice of the Course Coordinator. They are also requested to make necessary arrangements to execute the Certificate Course sessions as per the plan.

The respective in-charges are also requested to inform the Certificate Course plan to the respective students and ensure that all students attend without fail.

Year	Certificate Course	Faculty In-Charge	Date	Venue
B. Tech III rd	Course on “Youth Employment Program”	Mr. Sanjay Kumar Singh	19/12/2022 to 29/12/2022	Sambhaji Hall

- ☐ C. Information Technology
- ☒ D. All of the above

(8.) Why is it important to invest in youth employment programs?

- A. It can lead to economic growth
- B. It can reduce poverty and inequality
- C. It can empower young people
- ☒ D. All of the above

(9.) What is the impact of youth unemployment on society?

- A. Increased crime rates
- B. Increased social unrest
- ☒ C. Higher government welfare spending
- D. All of the above

(10.) How can businesses contribute to addressing youth unemployment?

- A. Providing training and internship opportunities for young people
- B. Hiring young people for entry-level positions
- C. Offering mentorship programs
- ☒ D. All of the above

(11.) What is the global youth unemployment rate?

- A. 10%
- B. 25%
- ☒ C. 50%
- D. 75%

(12.) In which region of the world is youth unemployment most prevalent?

- ☒ A. Africa
- B. Europe
- C. North America
- D. Asia

(13.) Which of the following factors influence youth employment rates?

- A. Economic conditions
- B. Education levels
- C. Government policies
- ☒ D. All of the above

(14.) What is the relationship between youth employment and social inclusion?

- ☒ A. Youth employment promotes social inclusion
- B. Youth employment has no impact on social inclusion
- C. Youth employment can lead to social exclusion
- D. Youth employment is irrelevant to social inclusion

Estd. 1999

(15). What is the concept of "youth underemployment"?

- ☒ A. Young people working in jobs that are below their qualifications
- ☐ B. Young people working part-time when they desire full-time work
- ☐ C. Young people working in jobs that are not related to their field of study
- ☐ D. Young people working in jobs that do not pay a living wage

(16). What role can mentorship programs play in addressing youth unemployment?

- ☒ A. Providing guidance and support to young people entering the job market
- ☐ B. Creating job opportunities for young people
- ☐ C. Offering financial assistance to young people
- ☐ D. None of the above

(17). What is the impact of youth employment on mental health?

- ☐ A. Positive youth employment experiences can improve mental health
- ☐ B. Youth employment has no impact on mental health
- ☒ C. Negative youth employment experiences can harm mental health
- ☐ D. All of the above

(18). What is the relationship between youth employment and economic development?

- ☐ A. Youth employment can contribute to economic growth
- ☒ B. Youth employment has no impact on economic development
- ☐ C. Youth employment can hinder economic development
- ☐ D. Youth employment is irrelevant to economic development

(19). What are some strategies that can help address youth unemployment?

- ☐ A. Investing in education and skills training programs
- ☐ B. Creating job opportunities through government policies
- ☐ C. Encouraging businesses to hire young people
- ☒ D. All of the above

(20). How can young people themselves contribute to improving their employment prospects?

- ☐ A. Continuing education and skills development
- ☐ B. Gaining work experience through internships and part-time jobs
- ☒ C. Networking with professionals in their desired field
- ☐ D. All of the above

Program Name: Course on "Youth Employment"

Test series

Name of student: Geunjan Deshmukh Branch: Civil Enrollment No. BJ7603

(1.) What is youth employment?

- ☒ A. Employment opportunities specifically targeted towards young people
- ☐ B. Employment opportunities for individuals aged 30 and above
- ☐ C. Employment opportunities for individuals under the age of 18
- ☐ D. Employment opportunities for retired individuals

(2.) Why is youth employment important?

- ☒ A. It helps young people gain work experience and financial independence
- ☐ B. It reduces the unemployment rate among older individuals
- ☐ C. It provides income for retired individuals
- ☐ D. It has no significant impact on the economy

(3.) Which of the following factors can contribute to youth unemployment?

- ☐ A. Lack of education and skills
- ☐ B. Lack of desire to work
- ☐ C. Government job creation programs
- ☐ D. High demand for young workers

(4.) What role can education play in addressing youth unemployment?

- ☒ A. Education can equip young people with the necessary skills for the job market
- ☐ B. Education is not important in addressing youth unemployment
- ☐ C. Education can only worsen the problem of youth unemployment
- ☐ D. Education has no impact on youth unemployment

(5.) What are some common challenges faced by young people in finding employment?

- ☐ A. Lack of work experience
- ☐ B. Limited access to job opportunities
- ☐ C. Discrimination based on age
- ☒ D. All of the above

(6.) What is the role of government in addressing youth unemployment?

- ☒ A. Creating policies and programs to promote youth employment
- ☐ B. Providing financial support to young people
- ☐ C. Offering free education to all young people
- ☐ D. All of the above

(7.) Which of the following industries are popular choices for youth employment?

- ☐ A. Retail
- ☐ B. Hospitality
- ☐ C. Information Technology
- ☒ D. All of the above

(8.) Why is it important to invest in youth employment programs?

- A. It can lead to economic growth
- B. It can reduce poverty and inequality
- C. It can empower young people

Permission Letter

To,
The Director,
CSIT Durg.

Sub.: Permission to conduct the Course on "Artificial Intelligence (Advance)"

Respected Sir,

We have planned to conduct Value Added Course on title "Artificial Intelligence (Advance)" for 4th years students. Details are given below:

Title of Program: Course on "Artificial Intelligence (Advance)"

Resource Person: Mr. Mahendra Datta

Date: 01/02/2023 to 10/02/2023

So kindly give us permission to conduct the program and to utilize the Lab. 10.

Thankyou,

Circular

Ref: CSIT/ VAC/2022-23/04

The schedule for the Certificate Course on “Artificial Intelligence (Advance)” for B. Tech IVth year students is detailed below. Respective coordinators are requested to verify any discrepancies in the schedule and bring them to the notice of the Course Coordinator. They are also requested to make necessary arrangements to execute the Certificate Course sessions as per the plan.

The respective in-charges are also requested to inform the Certificate Course plan to the respective students and ensure that all students attend without fail.

Year	Certificate Course	Faculty In-Charge	Date	Venue
B. Tech IV th	Course on “Artificial Intelligence (Advance)”	Mr. Deepak Sharma	01/02/2023 to 10/02/2023	Lab. 10

Time – 10:00 AM to 3:00 PM

Certificate Course Contents & Schedule

Academic Year: 2022-23

Name of the Course: Course on "Artificial Intelligence (Advance)"

Program Code: VAC/2022-23/04

Resource Person: Mr. Mahendra Datta

Program Duration (From – To) : 01/02/2023 to 10/02/2023

Total Hours: 40 Hours

S.No.	Topic to-be Covered	Hrs.	Date of Delivery
1	Module 1: Introduction to Machine Learning - Supervised, Unsupervised, and Reinforcement Learning - Decision Trees and Random Forests	5	01/02/2023 to 10/02/2023
2	Module 2: Support Vector Machines - K-Nearest Neighbors - Clustering algorithms	5	
3	Module 3: - Introduction to Deep Learning - Neural Networks and Backpropagation - Convolutional Neural Networks	4	
4	Module 4: - Recurrent Neural Networks - Generative Adversarial Networks - Transfer Learning	4	
5	Module 5: - Natural Language Processing - Word Embeddings - Sequence-to-Sequence Models	4

Report Academic Year 2022-23

1.	Title of the Program	Course on "Artificial Intelligence (Advance)"
2.	Year /Department	4 th
3.	Faculty In-Charge	Mr. Deepak Sharma
4.	Number of Hours	40 Hours
5.	Duration	09 days
6.	Venue	Lab. 10
7.	Course Objectives	1. Apply advanced AI algorithms and models to solve complex problems in various domains, such as healthcare, finance, and autonomous vehicles. 2. Develop and deploy advanced AI systems using popular AI frameworks and tools, such as TensorFlow, PyTorch, and Scikit-learn. 3. Evaluate the performance of AI systems through metrics such as accuracy, precision, recall, and F1 score. 4. Explore cutting-edge research in AI, including reinforcement learning, generative adversarial networks, and explainable AI. 5. Collaborate with team members to design and implement AI solutions that meet specific project requirements and constraints.
8.	Course Outcome	The students will be able to 1. Understand advanced concepts of artificial intelligence such as deep learning, neural networks, natural language processing, and reinforcement learning. 2. Apply advanced artificial intelligence techniques to solve complex problems in various industries such as healthcare, finance, and autonomous vehicles. 3. Analyze and evaluate the performance of advanced AI models using metrics such as accuracy, precision, recall, and F1 score. 4. Develop and deploy advanced AI models in real-world applications using programming languages such as Python and TensorFlow. 5. Implement cutting-edge research in the field of artificial intelligence to stay up-to-date with the latest trends and

Program Name: Course on "Artificial Intelligence (Advance)"

Test series

1. What is the primary goal of advanced Artificial Intelligence?
 - (a) To perform tasks that typically require human intelligence
 - (b) To replace human intelligence completely
 - (c) To predict the future accurately
 - (d) To simulate human emotions
2. Which of the following is not a subfield of advanced Artificial Intelligence?
 - a) Machine Learning
 - b) Natural Language Processing
 - c) Robotics
 - d) Neurology
3. Which type of machine learning algorithm is typically used for advanced AI applications?
 - a) Supervised learning
 - b) Unsupervised learning
 - c) Reinforcement learning
 - d) All of the above
4. What is the main difference between traditional AI and advanced AI?
 - a) Traditional AI focuses on simulating human intelligence, while advanced AI focuses on surpassing human intelligence
 - b) Traditional AI uses rule-based systems, while advanced AI uses neural networks
 - c) Traditional AI is deterministic, while advanced AI is probabilistic
 - d) There is no difference between the two
5. Which of the following is an example of advanced AI technology?
 - a) Siri
 - b) Chess-playing programs
 - c) Deepfake technology
 - d) Spell checkers
6. Which of the following is true about advanced AI ethics?
 - a) Advanced AI systems are always ethical because they are programmed by humans
 - b) Advanced AI ethics are still a developing field with many challenges and concerns
 - c) Only advanced AI researchers need to be concerned with ethics
 - d) Advanced AI ethics do not matter as long as the technology works
7. Which of the following is a potential risk associated with advanced AI?
 - a) Increased productivity and efficiency

- b) Unemployment due to automation
 - c) Enhanced security and privacy
 - d) Improved healthcare outcomes
8. Which company is known for developing advanced AI technology such as self-driving cars?
- a) Google
 - b) Apple
 - c) Microsoft
 - d) Amazon
9. What is the Turing Test used for in the context of advanced AI?
- a) To evaluate a machine's ability to exhibit intelligent behavior equivalent to, or indistinguishable from, that of a human
 - b) To test a machine's ability to predict future events accurately
 - c) To measure a machine's processing speed
 - d) To assess a machine's emotional intelligence
10. Which of the following is an example of a cutting-edge AI application?
- a) Virtual assistants like Alexa and Google Assistant
 - b) Automated customer service chatbots
 - c) Self-driving cars
 - d) All of the above
11. What is the primary purpose of reinforcement learning in advanced AI?
- a) To enable machines to learn and make decisions on their own through trial and error
 - b) To strictly follow pre-defined rules and algorithms
 - c) To replicate human cognitive processes
 - d) To analyze large datasets and identify patterns
12. Which of the following is a potential limitation of advanced AI technology?
- a) Limited scalability
 - b) Lack of creativity
 - c) Unpredictable behavior
 - d) All of the above
13. What is the role of neural networks in advanced AI?
- a) To process images and speech recognition
 - b) To analyze big data sets
 - c) To simulate human decision-making
 - d) All of the above
14. Which of the following is a key advantage of advanced AI over traditional AI?
- a) Faster processing speed
 - b) Greater adaptability and flexibility
 - c) Lower cost
 - d) Better data analysis capabilities

15. Which of the following technologies is not typically associated with advanced AI?
- a) Machine vision
 - b) Natural language processing
 - c) Blockchain
 - d) Robotics
16. Which of the following best describes the concept of transfer learning in advanced AI?
- a) The ability of a machine learning model to apply knowledge gained from one task to solve a different, but related, task
 - b) The process of transferring data between different AI systems
 - c) The ability of AI systems to learn from scratch without any prior knowledge
 - d) The process of transferring human intelligence to machines
17. Which of the following is a common criticism of advanced AI technology?
- a) It is too expensive to implement
 - b) It lacks transparency and accountability
 - c) It is too complex for non-experts to understand
 - d) It is not capable of performing tasks that humans can
18. What is the significance of explainable AI in advanced AI systems?
- a) It enables users to understand how AI systems arrive at their decisions and recommendations
 - b) It provides a way to control AI systems remotely
 - c) It allows AI systems to explain complex concepts to humans
 - d) It ensures that AI systems are always correct in their predictions
19. Which of the following industries is most likely to benefit from advanced AI technology in the future?
- a) Healthcare
 - b) Retail
 - c) Education
 - d) Agriculture
20. What is the role of big data in enabling advanced AI applications?
- a) Big data is not important for advanced AI
 - b) Big data provides the necessary inputs for training AI models
 - c) Big data is only used for storing AI algorithms
 - d) Big data ensures that AI systems always make the right decisions

Certificate of Participation

This is to Certify that Mr. / Ms. AFROZ ANSARI of Computer Science and Engineering Department, of 4th Year has participated in the Course on Artificial Intelligence [Advance] from 01/02/2023 to 10/02/2023 Organised by Chhatrapati Shivaji Institute of Technology, Durg.

Trainer
Ardent Computech,
Kolkata

Director
Dr. Santosh Kumar
Sharma

CSIT
Engineering the future

Chhatrapati Shivaji Institute of Technology

Run By: Shivnath Shikshan & Seva Samiti

Certificate of Participation

This is to Certify that Mr. / Ms. AMAN SAHOO of Computer Science and Engineering Department, of 4th Year has participated in the Course on Artificial Intelligence [Advance] from 01/02/2023 to 10/02/2023 Organised by Chhatrapati Shivaji Institute of Technology, Durg.

Mahendra Singh

Trainer

Program Name: Course on "Artificial Intelligence (Advance)"

Test series

Name of student: Aman Rao Branch: CSE Enrollment No: 2013434

1. What is the primary goal of advanced Artificial Intelligence?
☒ (a) To perform tasks that typically require human intelligence
☐ (b) To replace human intelligence completely
☐ (c) To predict the future accurately
☐ (d) To simulate human emotions
2. Which of the following is not a subfield of advanced Artificial Intelligence?
☐ a) Machine Learning
☐ b) Natural Language Processing
☐ c) Robotics
☒ (d) Neurology
3. Which type of machine learning algorithm is typically used for advanced AI applications?
☐ a) Supervised learning
☐ b) Unsupervised learning
☐ c) Reinforcement learning
☒ (d) All of the above
4. What is the main difference between traditional AI and advanced AI?
☒ (a) Traditional AI focuses on simulating human intelligence, while advanced AI focuses on surpassing human intelligence
☐ b) Traditional AI uses rule-based systems, while advanced AI uses neural networks
☐ c) Traditional AI is deterministic, while advanced AI is probabilistic
☐ d) There is no difference between the two
5. Which of the following is an example of advanced AI technology?
☐ a) Siri
☐ b) Chess-playing programs
☒ (c) Deepfake technology
☐ d) Spell checkers
6. Which of the following is true about advanced AI ethics?
☐ a) Advanced AI systems are always ethical because they are programmed by humans
☒ (b) Advanced AI ethics are still a developing field with many challenges and concerns
☐ c) Only advanced AI researchers need to be concerned with ethics
☐ d) Advanced AI ethics do not matter as long as the technology works
7. Which of the following is a potential risk associated with advanced AI?
☐ a) Increased productivity and efficiency
☒ (b) Unemployment due to automation
☐ c) Enhanced security and privacy
☐ d) Improved healthcare outcomes

Date – 21/04/2023

Permission Letter

To,
The Director,
CSIT Durg.

Sub.: Permission to conduct the Course on "Android Advance Course"

Respected Sir,

We have planned to conduct Value Added Course on title "Android Advance Course" for 2nd and 3rd years students. Details are given below:

Title of Program: Course on "Android Advance Course"

Resource Person: Mr. Mahendra Datta

Date: 04/05/2023 to 15/05/2023

So kindly give us permission to conduct the program and to utilize the Lab. 10.

Thankyou,

Course Coordinator

Circular

Ref: CSIT/ VAC/2022-23/05

The schedule for the Certificate Course on "Android Advance Course" for B. Tech IInd and IIIrd year students is detailed below. Respective coordinators are requested to verify any discrepancies in the schedule and bring them to the notice of the Course Coordinator. They are also requested to make necessary arrangements to execute the Certificate Course sessions as per the plan.

The respective in-charges are also requested to inform the Certificate Course plan to the respective students and ensure that all students attend without fail.

Year	Certificate Course	Faculty In-Charge	Date	Venue
B. Tech II nd and III rd year	Course on "Android Advance Course"	Mr. Deepak Sharma	04/05/2023 to 15/05/2023	Lab. 10

Time – 10:00 AM to 3:00 PM

Course Coordinator

Approved by: AICTE, New Delhi | Affiliated to CSVTU, Bhilai

6	Module 6: - Security and App Distribution - Security Best Practices - App Signing and Play Store Deployment	4	
7	Module 7: - Crash Reporting and Analytics Integration - In-App Purchases and Subscription Models	4	
8	Module 8: - Advanced Topics and Latest trends - Kotlin Coroutines and Reactive Programming - Dependency Injection with Dagger	4	
9	Module 9: - Testing and Debugging Strategies - Introduction to Jetpack Compose - Capstone Project and Portfolio Development	4	
10	Module 10: - Work on a real-world project implementing all the concepts learned - Present and showcase the project to peers and instructors - Build a portfolio showcasing completed projects and skills	4	
Total Number of Hours		40

Approved by: AICTE, New Delhi | Affiliated to CSVTU, Bhilai

Report Academic Year 2022-23

1.	Title of the Program	Course on "Android Advance Course"
2.	Year /Department	2 nd and 3 rd
3.	Faculty In-Charge	Mr. Deepak Sharma
4.	Number of Hours	40 Hours
5.	Duration	10 days
6.	Venue	Lab. 10
7.	Course Objectives	1. Understand the advanced concepts of Android development. 2. Learn how to implement complex UI designs and animations in Android applications. 3. Explore advanced topics such as background processing, networking, and database operations. 4. Gain knowledge of integrating cloud services and APIs in Android apps. 5. Familiarize with testing and debugging techniques for Android applications. 6. Develop expertise in optimizing app performance and battery consumption.
8.	Course Outcome	The students will be able to 1. Develop custom user interfaces using XML layouts and views. 2. Utilize SQLite to integrate a local database into an Android application. 3. Implement networking and web services using APIs and libraries. 4. Integrate Google Maps and location functionality into an Android application. 5. Implement background processing and services for improved performance. 6. Utilize Firebase for real-time database integration and cloud messaging.

Mr. Mahendra Datta addressing the students of 2nd and 3rd year on Artificial Intelligence (Advance) at Lab. 10 CSIT Durg on Dated 04/05/2023.

CHHATRAPATI SHIVAJI INSTITUTE OF TECHNOLOGY,DURG

Program Name: Course on "Android Advance Course"

Test series

1. What is the maximum number of activities that can be in a task in Android?
A) 256
B) 128
C) 64
D) Unlimited
2. Which component is responsible for handling background events?
A) Service
B) Content Provider
C) Broadcast Receiver
D) Activity
3. Which file is used to define the build version of an Android application?
A) AndroidManifest.xml
B) build.gradle
C) res/values/strings.xml
D) MainActivity.java
4. What is the name of the build tool that Android Studio uses to build an APK?
A) Gradle
B) Maven
C) Ant
D) Make
5. Which layout is best suited for placing UI elements in a grid-like fashion?
A) FrameLayout
B) LinearLayout
C) RelativeLayout
D) GridLayout
6. Which method is called when a user clicks on a button in Android?
A) onClickListener()
B) onClick()
C) onClick()
D) buttonClicked()
7. What is the role of the Intent object in Android?
A) To call a method in another application
B) To pass data between components
C) To display a notification message
D) To start a background service

8. Which permission is required to access the internet in an Android application?
A) ACCESS_WIFI_STATE
B) INTERNET
C) ACCESS_NETWORK_STATE
D) ACCESS_FINE_LOCATION
9. Which method is called to retrieve the data from a content provider in Android?
A) getContent()
B) query()
C) retrieveData()
D) fetchData()
10. Which of the following is not a valid format for defining colors in an XML layout file in Android?
A) #RRGGBB
B) #AARRGGBB
C) @android:color/colorName
D) rgb(red, green, blue)
11. Which class is used to manage the lifecycle of an Android application?
A) ActivityManager
B) ApplicationManager
C) Application
D) Activity
12. Which method is used to retrieve a reference to a View in an Android activity?
A) findView()
B) getView()
C) findViewById()
D) getViewById()
13. Which folder is used to store layouts in an Android application?
A) res/drawable
B) res/layout
C) res/values
D) res/menu
14. What is the correct way to close an activity in Android?
A) finish()
B) close()
C) exit()
D) remove()
15. Which class is used to define the data for a ListView in Android?
A) ArrayAdapter
B) RecyclerView

- C) ListViewAdapter
- D) ListAdapter

16. Which method is called when an activity is destroyed in Android?

- A) onTerminate()
- B) onDestroy()
- C) onStop()
- D) onResume()

17. Which attribute is used to define the background color of a View in an XML layout file?

- A) background-color
- B) color
- C) background
- D) backgroundColor

18. Which of the following is not a valid type of animation in Android?

- A) Translate
- B) Scale
- C) Rotate
- D) Fade

19. What is the purpose of the AsyncTask class in Android?

- A) To perform background tasks on the main thread
- B) To perform network operations on a separate thread
- C) To handle UI events
- D) To interact with content providers

20. What is the purpose of the ViewHolder pattern in Android?

- A) To improve the performance of ListView
- B) To handle touch events on Views
- C) To store data in a content provider
- D) To manage the lifecycle of an activity

Test series

Name of student: SHIKHAI S.R.H. Branch: I.T. Enrollment No. PA 7102

1. What is the maximum number of activities that can be in a task in Android?

- ☐ A) 256
- ☒ B) 128
- ☐ C) 64
- ☐ D) Unlimited

2. Which component is responsible for handling background events?

- ☒ A) Service
- ☐ B) Content Provider
- ☐ C) Broadcast Receiver
- ☐ D) Activity

3. Which file is used to define the build version of an Android application?

- ☐ A) AndroidManifest.xml
- ☒ B) build.gradle
- ☐ C) res/values/strings.xml
- ☐ D) MainActivity.java

4. What is the name of the build tool that Android Studio uses to build an APK?

- ☐ A) Gradle
- ☒ B) Maven
- ☐ C) Ant
- ☐ D) Make

5. Which layout is best suited for placing UI elements in a grid-like fashion?

- ☐ A) FrameLayout
- ☐ B) LinearLayout
- ☒ C) RelativeLayout
- ☐ D) GridLayout

6. Which method is called when a user clicks on a button in Android?

- ☐ A) onClickListener()
- ☐ B) onClick()
- ☒ C) onClick()
- ☐ D) buttonClicked()

7. What is the role of the Intent object in Android?

- ☐ A) To call a method in another application
- ☐ B) To pass data between components
- ☒ C) To display a notification message
- ☐ D) To start a background service

8. Which permission is required to access the internet in an Android application?

- ☐ A) ACCESS_WIFI_STATE
- ☒ B) INTERNET
- ☐ C) ACCESS_NETWORK_STATE
- ☐ D) ACCESS_FINE_LOCATION

9. Which method is called to retrieve the data from a content provider in Android?
A) getContent()
B) query() ☒
C) retrieveData()
D) fetchData()
10. Which of the following is not a valid format for defining colors in an XML layout file in Android?
A) #RRGGBB
B) #AARRGGBB
C) @android:color/colorName ☒
D) rgb(red, green, blue)
11. Which class is used to manage the lifecycle of an Android application?
A) ActivityManager
B) ApplicationManager
C) Application ☒
D) Activity
12. Which method is used to retrieve a reference to a View in an Android activity?
A) findView()
B) getView()
C) findViewById() ☒
D) getViewById()
13. Which folder is used to store layouts in an Android application?
A) res/drawable
B) res/layout ☒
C) res/values
D) res/menu
14. What is the correct way to close an activity in Android?
A) finish() ☒
B) close()
C) exit()
D) remove()
15. Which class is used to define the data for a ListView in Android?
A) ArrayAdapter ☒
B) RecyclerView
C) ListViewAdapter
D) ListAdapter
16. Which method is called when an activity is destroyed in Android?
A) onTerminate()
B) onDestroy() ☒
C) onStop()
D) onResume()
17. Which attribute is used to define the background color of a View in an XML layout file?
A) background-color
B) color
C) background
D) backgroundColor ☒
